### MESSAGE FROM THE GRAND SENIOR WARDEN

A number of years ago while attending a South Central Session in Louisiana, one of their officers spoke on getting out of the Asylum and getting busy to become known. He was very adamant that the world did not know anything about the Knights Templar.

In our travels around the State “civilians” and Masons continually ask who we are and what do we do. Those are good questions that would not be asked if we are not there. You cannot be known if you are not present. We are given a chance to explain our organization especially to Masons. I have had Mason tell me they had never heard of the Commandery, but were impressed and wanted to join.

For the last three or four years we have increased our public appearances. Knights have participated in parades and the Grand Lodge is again inviting the Knights Templar to participate in Corner Stone Ceremonies. After the Corner Stone Ceremony at Owasso the Grand Master expressed how pleased he was of the participation and enhancements of the Knights Templar in the ceremonies and invited us to participate in future ceremonies.

There are many events in communities that Knights Templar can participate in. Look around, when you find one, contact the Grand Commander for his approval. Our predecessors were deeply involved in their communities. Praise God and his Son in the highest. Peace on Earth good will to Mankind.
