Par# 293 Captain Movements
2018 June
All steps and marching executed from a halt, except the right step, begin with the left foot

The length of the measured from heel to heel.
- Full Step is 30 inches,
- Half Step is 15 inches
- Short Step is 22 inches

Quick time: The cadence is at 120 steps per minute (Normal Marching)

Common Time The cadence is 90 steps per minute with a 30-inch step

Double Time The length of step is 36 inches and the rate is 180 steps per minute

All steps and marching and movements involving march are executed in quick time (120/minute) unless double time or common time is added to the movement

The command of execution for all movements while marching is given as either foot strikes the ground, except as otherwise prescribed; the movement commences when the following foot is planted

FORWARD MARCH

Being at a halt

Captain's Commands: 1. Forward, 2. March

Captain: Commands: 1. Forward.

AT THE COMMAND FORWARD

Shift the weight of the body to the right leg, left knee straight.

AT THE COMMAND MARCH

Move the left foot smartly straight forward 30 inches, sole near the ground, and plant it without shock (DO NOT ACCENT THE STEP); next in like manner advance and plant the right foot; continue the march. The arms swing naturally

</tbody>
</table>

**Note:**
- If more than one rank, the Captain moves to a position two paces in front of the right (left) file facing down the line and then commands 3. Front
- Then he moves to his position.

**Note:**
- If the captain deems it necessary to move a Knight or Knights up or back, only the Knight or Knights moved will be scored by their respective judges.
- The Captain will be scored only after the command front has been given.

**Note:**
- After aligning the team, the Captain or a Platoon Leader gives the command: Front, the movement is not complete until the knight giving the command faces front.
- The position for the knight to go to before facing front is determined by the position of the team. If the team is in a full commandery front go to the position three paces in front of and centered on the commandery and face front.
- If the team is less than a full commandery front go to the position three paces in front of the right file (if right dress) (which is normally the guide) or the left file (if left dress) and face front.
- They may then move to a different position if necessary for the next command.
- If the alignment is by platoons and the platoon leaders are checking the alignment, after Front they move to their previous position beside the right or left file and face front.
- file closers
  - (1). In a commandery front, in the line of file closers two paces in rear of their respective platoons,
  - (2). The commandery in column of files, twos, threes or sections, in the line of file closers two paces opposite the center of their platoon,
  - (3) In column of platoons
    - Platoon Leaders: two paces in front of the center of their platoons,
    - Guides: In line of platoons by the side of the leading guide.
WHEELING (Par. 80)

Wheels are of two kinds; on fixed or moving pivots. In all wheels, the guide on the marching flank keeps the pivot constantly in view (Paragraph 18); to this end, the Knight next to him keeps the line of his shoulders a little to the rear, but in the same direction. When platoons or larger subdivisions wheel, a slight uniform bow of the line to the rear is permissible, but any break in the line will be scored.

ADDENDUM (Par. 80)

In the execution of all wheels, whether on fixed pivots or moving pivots, head and eyes are turned simultaneously with the first step of the wheel. Head and eyes are turned back to the front simultaneously with the first step following the completion of the wheel. When the wheel terminates with a halt, head and eyes are turned simultaneously with the last movement of the halt; that is, as the feet are brought together (Paragraph 67).

Head Movements Following Successive Formulations into Line
(Examples: Paragraphs 205, 207, 241, 303 and 304)

In successive formations into line, each element halts and dresses successively upon arriving in line. The Knights of each element complete the halt in unison with head and eyes straight to the front. On the first count after the halt is completed, head and eyes are turned in unison to dress.

Added March 2005

Distances between Knights, Columns, and Guides

In Computing distances,
- the breadth of a Knight is taken at 22-inches and
- his depth at 12 inches
- This gives 10 inches from breast to back (facing distance) between ranks in column of files,

Columns:
- Between column of twos 32 inches,
- Between column of threes 54 inches
- Between column of sections 120 inches (4 Paces)
- Between Column of platoons (Class B) =180 inches (6 Paces); (Class) = 240 inch (8 Paces)

The distance of the leading guide from the leading file:
- Column of Twos 32 inches
- Column of Threes 54 inches
- Column of Sections 54 inches

Commandery distance:
- Class A = 16 paces
- Class B = 12 paces
- Class C = 8 paces
- Class D = 4 Paces
